

About Us

The **LIDEL Group** is a 100% Portuguese project, already in its 3rd generation, dedicated to the publishing of technical and scientific books of Portuguese speaking authors. In 2013, we completed 50 years dedicated to the book.

Today, **LIDEL Group** is one of the major references in the national technical publishing in terms of diversity of offer, quality of the products, thematic content and innovation, presenting a catalog of about 700 books in the Portuguese language.

The Group consists of LIDEL – Edições Técnicas, FCA – Editora de Informática, ETEP – Edições Técnicas e Profissionais, PACTOR – Edições de Ciências Sociais, Forenses e da Educação, fcadesign – Design e Arquitetura and LIDEL saúde e bem-estar, the youngest brand of the Group, which offers general content with LIDEL's stamp of quality.

Our editorial activity is supported by a strong component of diffusion and distribution, so we can continue to apply our motto as always: *The book looking for the reader*.

Brands and Editorial Areas

LIDEL – Edições Técnicas

LIDEL – **Edições Técnicas** is the "parent company" of the Group. The extension, diversity and quality of its editorial catalog reflect its experience of five decades dedicated to the technical book.

To answer the needs of professionals and university students of the Portuguese speaking world, LIDEL counts among its authors with renowned specialists and prestigious investigating teams in the most varied areas. Through these 50 years, we published some of the most important technical books of Portuguese speaking authors, consolidating us as an important motor for the diffusion of Science in several areas of knowledge. Among them, we publish in the areas of Medicine & Fundamental Sciences, Engineering & Earth Sciences, Management & Economy, Hospitality & Tourism.

The promotion of the Portuguese language has been since the beginning one of our top priorities. In the last decades, our materials for teaching Portuguese as a Foreign Language, Second language and Non-maternal Language have become the most used worldwide and LIDEL rapidly assumed the leadership in this area. The recognition of the learners of the Portuguese language and adoption through the major teaching institutions worldwide, of which LIDEL is very proud of, are the biggest proof of the quality that we demand and put in our projects, a result of a team work – authors, publisher and distributors.

■ FCA – Editora de Informática

FCA – Editora de Informática presents the most complete library of Information Technology in the Portuguese language, with about 300 titles, framed in several collections, and destined to professionals, students and public in general.

The authors and professionals are highly recognized in the areas they publish. Among its authors, it is with a lot of pride that FCA counts with teachers of the main teaching institutions, renowned professionals in its activity sector, qualified trainers in the main producers of *software*, MVP (*Microsoft Most Valuable Professional*), among others.

Universities, Higher Education Institutes, Training Schools, among other entities, adopt and recommend to its students the books from FCA.

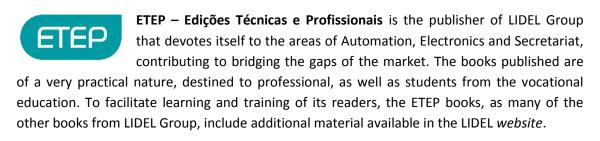

PACTOR

PACTOR publishes books in the areas of Social, Forensic and Education Areas, presenting contents that put together a practical component of simple reading and a great scientific rigor, providing to the readers a rapid access with the knowledge quality that they are looking for.

The message, the information, the quality and rigor that PACTOR puts in its projects are valuable contributions to the understanding of the individual, of society and of the moment we are living in.

Continuing the editorial line of LIDEL Group, PACTOR has started its publications at the end of 2010 and it is with much pride that already counts with some of the national tops in the areas to which it is devoted.

ETEP – Edições Técnicas e Profissionais

fcadesign

design was presented in ExperimentaDesign 2011, in Lisbon, as the new brand of design in the Portuguese language. The team of fcadesign has as a mission to make each book not only a working tool and a diffusion of knowledge, but also an object of aesthetic and creative excellence. Soon, fcadesign will present some surprises, continuing the path began with its first publication *Design pelo Desenho*.

LIDEL saúde e bem-estar

After 50 years since its foundation, LIDEL is now recognized as a book publisher of excellence and accuracy, sought by professionals and students who trust in their books and authors. At the same time that it strengthens this tradition,

LIDEL is also trying to reach new audiences, introducing books with general content with its stamp of quality. For those new readers we have created **LIDEL saúde e bem-estar**.
